

“ This house is dying for an
energy assessment.

Get me a
thermographic
camera, STAT!”

Your home is at risk for an energy emergency!
A home energy assessment is just what the doctor ordered.

For a limited time, Santa Clara County is offering healthy rebates that cover **80% of the cost of a home energy assessment up to \$800.**

Participating Contractors are trained to diagnose ways you can reduce energy use, improve comfort and air quality, and lower energy costs. Complete the improvements your contractor recommends and be eligible for incentives **up to \$4,000** through Energy Upgrade California.

Go to sccgov.org/energyupgrades or see other side for a list of contractors.

IN SANTA CLARA COUNTY

PRESCRIPTION FOR SAVINGS

For: Santa Clara County Homeowner Date: Today!

Ailment: Wasting Energy

Take: Advantage of limited time only rebates up to 80% of the cost of a home energy assessment
