MEMORANDUM

To: Bonnie Broderick, Manager, Chronic Disease & Injury Prevention
Division, Public Health Department
From: E. Chris Wilder, Executive Director
Date: July 28, 2009
Re: Grant to PHD from VMC Foundation

As we have discussed by correspondence and phone, the VMC Foundation is pleased to award the Department of Public Health a grant in the amount of \$58,082 for the period of March 1, 2009 – February 28, 2010. This award will help to integrate childhood feeding practices within the SCVHHS and with community partners in an effort to reduce childhood obesity locally.

Our funding partners have recognized the work of PHD and the entire SCVHHS in keeping our youngest patients healthy and active. We are pleased to support this effort, and will provide this funding at your request pending approval to accept the grant.

Call me any time with additional questions. Thanks once again.

Kindest Regards,

E. Chris Wilder
Executive Director
