

Oregon Expressway Improvement Project

Please complete this questionnaire and return before **September 15, 2008**

All alternatives at signalized intersections include new signal equipment; improved ADA, pedestrian and bicycle access at corners; upgraded signal phasing to remove left-through vehicular conflicts; reduced pedestrian conflicts with left turn traffic; pedestrian countdown signals; improved vehicle/bicycle detection; red light violation indicators for enhanced police enforcement.

Intersection	Alternative	Preferred Alternative	Comments: Please provide feedback for intersections that are of interest to you. Please attach additional paper if needed.
