

Please follow these steps when entering your location information on the My Locations page.

1. Add your address and click “verify the address.” You will land on a map page and the map marker shown is located in Kansas. To change the map location, follow these steps:
2. **In the left-hand column, click the second button shown in red below**
 - A - United States United States
 - None of these looks right**
3. **Next, click the second button below shown in red below and the marker will show the correct location (if not, drag the marker to the correct location).**
 - A - United States United States
 - None of these looks right
 - Show us - drag the pin to your location**
 - Continue anyway - use the address as entered
4. **Click the blue box at lower right – “this is my location” – then, save and continue.**
