Adult & Older Adult Program

If you experience behavioral health needs (mental health and/or substance use) which leave you unable to do basic self-care skills you may be able to get behavioral health services.

We serve adults (age 18-59) and older adults (60+). Our program provides free or low cost services to people who have Medi-Cal, Medicare or no insurance to residents of Santa Clara County.

Services are offered in North County, San Jose and South County.

We have county offices and contract with more than 45 providers who offer behavioral health services to support hope, wellness and recovery.

We are able to give support to people from different cultures, backgrounds and those who speak different languages. We also serve those who are hearing impaired, have dual diagnosis or are LGBTQ.

Our Values

People with behavioral health concerns often have added social, economic or medical challenges. Our belief is that people can and will get better. Recovery is a journey of healing for a person. The goal is for a person to live the meaningful life of his or her choice. However, people have to guide their own path of recovery based on their own hopes, dreams and desires.

We want to help you get back on your feet quickly so you can live the life you want. Our goal is to refer you back to a lower level of care or no additional care, if possible.

Our Services

We serve people with different care needs:

- Outpatient
- Intensive Outpatient
- Urgent Care
- Crisis residential
- Inpatient
- Long term out of home placement
