---

#### New Project Idea: Client and Consumer Employment

- **INN Approach:** Makes a change to an existing mental health practice or approach, including but not limited to, adaption for a new setting or community
- **Test:** Individual Placement & Support Supported Employment (IPS/SE) model; although the model has shown to be an effective evidence-based practice (not new), it is BHSD's belief that the implementation of the model will help transform the culture of how the overall system views employment for clients/consumers which will be the innovative element of this project: employment adds to the well-being of clients/consumers
