Child abuse is a persistent problem within Santa Clara County and the greater Bay Area. Although it is a hidden social ill, its impact is significant. A single incidence of child abuse impacts not just the child, but the family, the community, and society at large. In fact, child abuse is a core underlying factor to many of the ongoing struggles of this community, such as dropout rates, homelessness, high incarceration, and health concerns.

The devastating physical, mental, and emotional effects of abuse persist long after maltreatment occurs, and result in ongoing costs to every sector of our community. This report brings to light this largely ignored issue, and the negative impact it has on all of us.

### The Impact of Child Abuse

**Cost Explanation**

The lifetime economic burden per victim is $346,221 which is an indication of the financial importance to Santa Clara County of preventing a single child from becoming a victim. The total annual economic burden of child abuse in Santa Clara County is $628.9 million. That amount could send 6,000+ kids to college.

**The Statistics**

- There are 3.5 million reports of child abuse made in the U.S. each year, involving 6 million children.
- There are ~58,000 reports of child abuse made in the Bay Area every year.
- That means every 10 minutes a report of child abuse is made in the Bay Area.

Research is proving that there are five commonalities that healthy families, free from abuse, share. These five protective factors can be supported and strengthened within vulnerable families to combat risk factors (history of abuse, isolation, community violence, etc.) and prevent incidences of child abuse.

**FAMILY PROTECTIVE FACTORS**

**SOCIAL & EMOTIONAL COMPETENCE OF CHILDREN**

Family and child interactions that help children develop the ability to communicate clearly, recognize and regulate their emotions, and establish and maintain relationships

**KNOWLEDGE OF CHILD DEVELOPMENT**

Understanding parenting strategies that support physical, cognitive, language, social, and emotional development

**PARENTAL RESILIENCE**

Managing stress and functioning well when faced with challenges, adversity, and trauma

**SOCIAL CONNECTIONS**

Positive relationships that provide emotional, informational, instrumental, and spiritual support

**CONCRETE SUPPORT**

Access to concrete support and services that address a family’s needs and help minimize stress caused by challenges

**BREAKDOWN OF $346,221**

**LIFETIME PRODUCTIVITY**

Victims are more likely to be unemployed and rely on public assistance and may face barriers to employment, which lead to diminished earning potential throughout adulthood.

**EDUCATION**

Abused children are 77 percent more likely to require special education.

**CHILD WELFARE**

Victims may require intervention services, foster care, and counseling services.

**CRIMINAL JUSTICE**

Abused children are 59 percent more likely to be arrested as juveniles, and 28 percent more likely to have an adult criminal record.

**HEALTHCARE**

Victims may require hospital care, mental health services, and other medical services throughout childhood, and have a higher incidence of chronic health problems, mental health issues, substance abuse, and risky sexual behavior throughout adulthood.
