TO BE CONSIDERED “OUTDOOR,” THE FACILITY:

i. Must allow air to flow freely through the entire space, AND

ii. Must have at least 50% of its perimeter open, AND

iii. May not have closed sides that form a corner.

Note: Whether a facility is “outdoor” depends on how its sides are set up. It does not matter whether or not the facility has a canopy, roof, or other overhead covering.

Please see the FAQ page for more information.

At all dining establishments, tables must be at least 10 feet apart (measured from the edge of the tables).

These are examples only.

Please see the California Department of Public Health website (www.cdph.ca.gov) for full details on the State’s definition of an outdoor facility.

Additional information may be found on the County’s FAQ page: https://www.sccgov.org/sites/covid19/Pages/public-health-orders-faq.aspx.
