Santa Clara County
Property Crime Statistics

Compiled By:
The Crime Strategies Unit
Office of the District Attorney of Santa Clara
Executive Summary

This report was prepared to give a basic data and statistical understanding of property crime in Santa Clara County. The analysis done was performed using ten years of data (2009-2018), and divided into automobile, residential and non-residential burglaries, as well as stolen motor vehicles. This report will include data sheets, yearly averages, population average per city.

There is a difference between Motor Vehicle Theft and Automobile Burglary. Motor Vehicle Theft, as used in this report and by California Department of Justice coding definitions, is theft of a vehicle. Automobile Burglary (or larceny from a motor vehicle) is stealing from a car, or breaking into a car to take items inside, as opposed to taking the whole car.

Note: All data used was from the California Department of Justice/Open Justice forum. [https://openjustice.doj.ca.gov/exploration/crime-statistics/crimes-clearances](https://openjustice.doj.ca.gov/exploration/crime-statistics/crimes-clearances)
