Cited On: 03/13/2018

K23M - 8 Points - Observed rodents, insects, birds, or animals - Applicable Section(s):114259.1, 114259.4, 114259.5

***Inspector Observations: Live and dead cockroaches found on floors and walls of food facility and behind cold holding and cooking equipment. [CA] Each food facility shall be kept free of vermin: rodents (rats, mice), cockroaches, flies. The facility must complete the following items prior to re-inspection:***

- Clean food debris behind and on cold prep units
- Contact licensed pest control to eliminate cockroaches from facility
- Seal all cracks and crevices between walls, floors, and ceilings in food prep area
- Clean and sanitize all floors, walls and equipment after pest control service

# OFFICIAL INSPECTION REPORT

Owner Name: SANKRANTI RESTAURANT GROUP INC  
Facility Name: SANKRANTI  
Site Address: 727 S WOLFE RD, SUNNYVALE, CA 94086  
Program: PR0301407 - FOOD PREP / FOOD SVC OP 6-25 EMPLOYEES RC 3 - FP14

Facility ID: FA0214197  
Inspection Date: 03/14/2018  
Inspection Time: 11:00-12:15

**Follow up re-inspection conducted for routine inspection dated 3/13/18 that resulted in a red placard - closure due to presence of cockroach activity in food prep area.**

## Observations:

**\*\*23M**  
- Facility was able to seal cracks and crevices. Some of the sealing is not dry and left a few holes or gaps.  
- Facility had cleaned floors and walls behind cold food prep units and tandoori oven yesterday, however there are still some food debris and dead cockroaches found today on floors behind all equipment.  
- Live cockroach activity found behind cold food prep units and under area where handsink and food prep sink are located.  
- Pest control report serviced 3/14/18 at 1:30 am for preventative treatment. Per phone conversation with technician, chemicals used are slow active and take time. Also, facility is on a monthly treatment plan, but can be oncall once a week.  
- Corrective Actions: Facility needs to continue sealing any holes in previously sealed areas, clean outside and interior surface including condenser/fan area behind cold prep units, and clean all dead cockroach bodies and food found on floors.  
\*\*\* Highly recommend pest control come out once more next week. Please send pest control report to [melissa.gonzalez@cep.sccgov.org](mailto:melissa.gonzalez@cep.sccgov.org)

## \*\*22 minor

- Floor sink between food prep sink and hand sink still drains slowly. Floor drain next to floor sink has pooled waste water that is not draining. Contact plumber to service waste pipes such as to clean and repair them to drain wastewater properly. Provide service report upon next re-inspection

**Facility is to remain closed until the above corrected actions have been completed. Recommend pest control come out once more next week. Please send pest control report to [melissa.gonzalez@cep.sccgov.org](mailto:melissa.gonzalez@cep.sccgov.org)**

**\* Next re-inspection will assess a \$219/hr fee that will be billed to owner.**

## CLOSURE / PERMIT SUSPENSION NOTICE

This notice is to inform you that as of this date the Environmental Health Permit for the above mentioned food facility is hereby suspended and all operations therewith are ordered to cease. This action is taken in accordance with Section 114409 of the California Health and Safety Code which states 'If any imminent health hazard is found, unless the hazard is immediately corrected, an enforcement officer may temporarily suspend the permit and order the food facility or cottage food operation immediately closed.'

You have the right to make a written request for a hearing within 15 days after receipt of this notice to show just cause why the permit suspension is not warranted. Failure to request such a hearing within the 15-day period shall be deemed a waiver of the right to a hearing. After these violations have been corrected, you must call the Department of Environmental Health for a reinspection to reinstate the permit to operate. Phone #: (408)918-3400.
