    Compliance of this violation has been verified on: 04/09/2019

Measured Observations

N/A

Overall Comments:

Conducted 2nd follow up inspection at facility for vermin activity. Facility completed full service deep cleaning and second pest control treatment since last follow up inspection on 4/5/19. No vermin activity noted at time of inspection. Facility removed all food items from basement and advised to only store non food items such as equipment, and utensils or canned goods. All items stored in the basement shall be cleaned and sanitized prior to use. Absolutely no open food shall be stored in unapproved and unfinished areas. Sealed manufactured food products may be stored in basement during emergency situations only.

Recommend to continue pest control treatment once every other week for the next 6 weeks. If no vermin activity is noted on the report, decrease pest treatment to once per month. Continue utilizing developed SSOP and Master Cleaning Schedule for preventative measures.

This inspection shall be invoiced to the accounts mailing address at $219.

When required to determine compliance, a single reinspection will be conducted without additional charge. If subsequent reinspections are required, an hourly fee (minimum one hour) at the current rate approved by the Board of Supervisors will be assessed for each and every reinspection until the necessary changes or corrections are made. Unless otherwise noted by the inspector, all violations are to be corrected no later than 4/23/2019. Any major change in menu or any change in ownership must have prior approval by this Department. This may require structural and/or equipment changes or remodeling to accommodate new operations.
