Canh Thai Temple	312	54	17%	27	27	373	70	19%	35	35

Notes:

1. Trip generation developed based on operational information provided by project applicant.
2. Trip generation represents trips generated by the project during the street peak hours..
3. Special Events include the Birth of Buddha and Buddhism Mother's Day.
4. The largest traffic impact from Chinese New Year activities would occur when Chinese New Year falls on a weekday. Therefore, the trips generated by Chinese New Year activities were analyzed during the weekday PM peak hour.
5. The largest traffic impact from Birth of Buddha or Buddhism Mother's Day activities would occur when these events fall on a Sunday. Therefore, the trips generated by Birth of Buddha and Buddhism Mother's Day activities were analyzed during the Sunday midday peak hour.
