Supplemental Memo

Meeting Date: February 10, 2015
To: Board of Supervisors
From: Department of Planning and Development
Subject: Public Hearing on Boulder Ridge Golf Course fitness and swim facility

INTRODUCTION

On November 18, 2014, the Board held a public hearing to consider the proposed fitness center at Boulder Ridge Golf Course, which includes certification of a Final EIR, a Zoning Ordinance Text Amendment, and the Major Modification of Use Permit & ASA & Grading. After the public hearing was closed, one of the five supervisors excused himself and left the hearing. The remaining four Board members voted 2-2 (with the fifth vote absent) on a motion to approve the application. Under the County’s Zoning Ordinance, a land use application must be acted upon by the decision-making body with three members of the Board concurring for that action to be valid. Thus the 2-2 vote on the motion meant that the Board did not take action on the application and that the application was neither approved nor denied. The application is returning to the Board for consideration and action. The February 10, 2015 public hearing on the application has been noticed in accordance with County and State law requirements.

RECOMMENDED ACTION

As previously stated in the June 10, 2014 staff report, staff recommends the Board to consider the Major Modification of Use Permit, Architecture and Site Approval and Grading to construct a fitness and swim facilities at Boulder Ridge Golf Club and a minor expansion of the existing maintenance facility, and Zoning Ordinance Amendment to clarify the types of related uses allowed at golf courses (County File No. 2195-13P-13A-13G). The recommended actions are as follows:
i. Open public hearing

ii. Close public hearing

iii. Adopt Resolution certifying the final Environmental Impact Report for the Zoning Ordinance Amendment and Major Modification of Use Permit, Architecture and Site Approval and Grading; and

iv. Adopt Ordinance amending Section 2.10.040 and 4.10.040 of the County Zoning Ordinance to identify swimming pools, tennis courts and fitness facilities as related uses allowed within Golf Course and Country Clubs, with limitations on size and intensity; and

v. Adopt Resolution approving the proposed Major Modification of Use Permit, with ASA and Grading for the Boulder Ridge Fitness and Swim Facilities project, subject to conditions outlined in the conditions of approval.

OR

vi. Declare intent to deny the proposed Major Modification of Use Permit, Architecture and Site Approval and Grading and refer to County Counsel for preparation of a resolution with findings to support the Board’s intent.

If the Board decides to approve the application, then we recommend the Board (1) adopt a resolution certifying the Final Environmental Impact Report for the Zoning Ordinance Amendment and Major Modification of Use Permit, Architecture and Site Approval and Grading; (2) adopt Ordinance amending Section 2.10.040 and 4.10.040 of the County Zoning Ordinance to identify swimming pools, tennis courts and fitness facilities as related uses allowed within Golf Course and Country Clubs, with limitations on size and intensity; and (3) adopt Resolution approving the proposed Major Modification of Use Permit, with ASA and Grading for the Boulder Ridge Fitness and Swim Facilities project, subject to conditions outlined in the conditions of approval presented to the Board of Supervisor at the public hearing on November 18, 2014 (Attachment 2). We recommend that the Board take separate action on each item, beginning with the certification of the Final Environmental Impact Report.

If the Board denies the application, then we recommend the Board declare its intent to deny the application stating its reasons for denial and refer to County Counsel the preparation of a resolution with findings to support the Board’s decision.
BACKGROUND

The proposed Boulder Ridge fitness and swim facility was originally scheduled to be heard by the Board on June 10, 2014, and consisted of a 20,000 square foot facility. The application as presented to the Board at the public hearing on November 18, 2014, consisted of a revised design that included a reduction of the overall building footprint for the proposed fitness facility to approximately 14,500 s.f. The revision is a reduction of approximately 26% from the original proposal, which is identified as Attachment 1 to this memo. The revised project includes the following functions within three buildings: a main fitness building of 12,443 square feet, a pool shower building of 517 square feet, and a group exercise building of 1,705 square feet. The staff recommended conditions of approval for the Use Permit and Architecture and Site Approval considered by the Board on November 18, 2014 are attached as Attachment 2.

On November 18, 2014, the Board considered the application, opened the public hearing and accepted testimony, and closed the public hearing. A motion was proposed to approve the application and modify the conditions of approval so that (1) competitive swim meets and associated conditions not be allowed, (2) the applicant plant trees along westerly edge of the project from the retaining wall to Old Quarry Road and (3) a reduction in height of the towers of the proposed buildings, and (4) applicant not permit any membership solely to the fitness/swim center. The motion was further amended to require (5) three noise studies to be conducted during each of the first year and second year after the facility is open and to (6) change the swimming pool hours of operation from 6:00 a.m. to 10:00 p.m. The vote on the motion was 2-2 and no action was taken on the proposed project on November 18, 2014. The meeting minutes of the November 18, 2014 are attached as Attachment 4. These minutes were approved by the Board at its meeting on December 9, 2014 (Item No. 31(b)).

In a letter dated November 21, 2014 to the Clerk of the Board (Attachment 2), the applicant confirmed that they are agreeable to the additional conditions identified by staff and as part of the motion on November 18, 2014. These additional conditions, in general terms, the applicant is agreeable to are:

1) No swim meets.
2) Pool hours from 6am to 10pm.
3) Row of trees along the retaining wall at the base of the fitness/swim center in order to screen the center from view from the Almaden Valley floor.
4) Reduction in the height of the light well architectural features in the proposed buildings.
5) No membership solely to the fitness/swim center.
6) Three noise studies during each of the first two years of operation after the fitness/swim center open.
7) An indemnification of the County regarding project approvals.

Proposed Revised Use Permit Conditions

File Number: 2195-13P-13A-13G
Owner/Applicant: Boulder Ridge Golf Club / Rocke Garcia

Project Description: Major Modification of Use Permit for the Boulder Ridge Golf Course and Country Club to construct and operate a Fitness and Swim Center (total area of approximately 15,000 s.f. includes three separate buildings). The project also includes a minor expansion of the existing storage yard and the re-contouring of the existing golf driving range.

The following conditions for the Boulder Ridge Golf Course and Country Club include conditions for the fitness and swim center and the competitive youth swim program (conditions #1-15) and conditions for the operation (conditions #16-32) and ongoing maintenance (conditions #31-33) of the golf course, clubhouse and reception uses. These conditions supersede and replace all prior conditions.

PROPOSED CONDITIONS FOR THE FITNESS AND SWIM CENTER / COMPETITIVE YOUTH SWIM PROGRAM

1. The Modification of Use Permit approving the proposed development to construct the Fitness and Swim Center, the minor maintenance storage yard expansion and re-contouring of the existing golf driving range is effective on the effective date of Ordinance No NS-1200-343 amending Zoning Ordinance Section 2.10.040, Use Classification – Golf and Country Club, and Section 4.10.140, Supplemental Regulation.

2. Development for the proposed Fitness and Swim Center, maintenance storage yard minor expansion and re-contouring of the existing golf driving range shall take place in accordance with approved plans for the Use Permit, Architecture and Site Approval and Grading that were submitted to the Planning Office in September 2014. The project includes a main fitness building of 12,443 s.f., a pool shower building of 517 s.f., and a group exercise building of 1,705 s.f. Included in
the project is also the minor maintenance storage yard expansion and re-contouring of the existing golf driving range.

3. Comply with conditions of Architecture & Site Approval (Exhibit C).

Fitness Facility Membership

4. The operator shall not permit any membership solely to the fitness/swim center. Any membership that includes rights to use the fitness/swim center must also include, at a minimum, the same social membership rights and obligations that are applicable to other types of membership at the club. The intent of this condition is to preclude the fitness/swim center from being operated as a stand-alone facility.

Hours - Fitness and Swim Center

5. Operation Hours: 5am – 11pm, daily.

Competitive Youth Swim Program

6. Up to six (6) dual swim meets (home team vs. visiting team) are to be held during the summer months (June 1 to August 31) between the hours of 9am and 1pm, on Saturdays only.

8. Weekday practices are to be held in the afternoon between 4pm to 7pm, all year around. Weekend practices are to be held on Saturdays prior to 12pm, excluding Saturday on which a dual swim meet occurs.

Noise

9. No outdoor amplified music or other outdoor amplified broadcasting is allowed at the Fitness and Swim Center except the use of approval start buzzer system associated with the competitive youth swim program.

10. To minimize noise exposure at the easterly property line, the final configuration of the pool, including the location of the starter buzzer and designated spectator areas, shall be evaluated by a qualified acoustical engineer prior to the issuance of building permit for the construction of the facility. The acoustical engineer shall evaluate the configuration of these features to ensure that noise exposure would not exceed 55 dBA at the easterly property line. Per the analysis in the noise
report prepared in the EIR and as shown in Table 6 of the Draft EIR, the configuration shall comply with one of the following:

<table>
<thead>
<tr>
<th>Pool Orientation</th>
<th>Starter Location</th>
<th>Spectator Location</th>
</tr>
</thead>
<tbody>
<tr>
<td>1</td>
<td>C</td>
<td>East</td>
</tr>
<tr>
<td>1</td>
<td>D</td>
<td>East</td>
</tr>
<tr>
<td>1</td>
<td>D</td>
<td>South</td>
</tr>
<tr>
<td>2</td>
<td>A</td>
<td>East</td>
</tr>
<tr>
<td>2</td>
<td>B</td>
<td>East</td>
</tr>
<tr>
<td>2</td>
<td>B</td>
<td>South</td>
</tr>
<tr>
<td>2</td>
<td>C</td>
<td>East</td>
</tr>
<tr>
<td>2</td>
<td>D</td>
<td>East</td>
</tr>
</tbody>
</table>

11. Prior to final inspection and occupancy for the facility, a qualified acoustical engineer will evaluate the noise exposure from the starter buzzer at the easterly property line. This evaluation, which may include noise monitoring, shall be done for the purpose of calibrating the starter buzzer volume to set volumes at a level that will ensure that noise levels at the easterly property line will remain below 55 dBA.

12. The proposed project is designed in accordance with the memo prepared by Schaaf and Wheeler on April 21, 2014 regarding the estimation of outdoor water demand.

Post-Approval Monitoring

13. The developer/operator shall be responsible for paying all reasonable costs associated with work by the County Planning Office, or under the supervision of the County Planning Office, that is conducted in conjunction with, or in any way related to, the conditions of approval for the Use Permit and Architecture and Site Approval and the associated Mitigation Monitoring Program for the subject property. This includes, but is not limited to, costs for staff time, consultant fees and direct costs associated with report production and distribution.

14. Submit one-year status report detailing the following areas, with accompanying Post-Approval Monitoring (PAM) fee (minimum of two (2) hours of staff consultation time subject to current fee schedule establish by the Board of
Supervisors) for 3 years (3 reports total), commencing upon final occupancy of Fitness and Swim Center. The report should include the following:

a. Fitness and Swim Center
   - Analysis prepared by a qualified traffic consultant assessing whether sufficient parking is provided onsite for the golf course, clubhouse, reception facility, the fitness center and the competitive youth swim program. The analysis should also address if the assumed increase in traffic is consistent with the addendums prepared by Pang Engineering Inc.
   - Parking survey should be conducted during peak usage of all golf and related uses, i.e. course, clubhouse, reception facility, the fitness center and the competitive youth swim program uses.
   - If parking is found to be insufficient, at the Planning Manager’s discretion, the Use Permit can be scheduled for modification, reaffirmation or revocation by the Planning Commission.

b. Competitive Youth Swim Program
   - Dates of each swim meet that occurred;
   - Number of total swim meets that occurred each year;
   - Number of maximum people (swimmers and spectators) that attended each event;
   - Duration and hours of each event;
   - Evidence of starting gun / buzzer that was used during the event, such as a manufacture’s specification sheet of the buzzer used during each event;
   - Analysis that evaluates the noise exposure from the starter buzzer at the easterly property line during one of the six dual swim meets. This evaluation, which may include noise monitoring, shall be done with the purpose of calibrating the starter buzzer volume to set volumes at a level that will ensure that noise levels at the easterly property line will remain below 55 dBA.

Indemnification

15. Pursuant to Section A33-6 of the County’s Ordinance Code, the Owner/Applicant, including any successor-in-interest or assign, shall defend, indemnify and hold harmless the County and its officers, agents, employees, boards and commissions from any claim, action or proceeding brought by any person or entity other than the Owner/Applicant ("third party") against the County or its officers, agents, employees, boards or commissions that arises from or is an any way related to the
approval, including but not limited to claims, actions or proceedings to attack, set aside, void or annul the approval. If a third party claim, action or proceeding is filed, the County will promptly notify the applicant of the claim, action or proceeding and will cooperate fully in the defense. Notwithstanding the above, the County has the right to participate in the defense of any claim, action or proceeding provided the County bears its own costs and attorney fees directly associated with such participation and defends the action in good faith. The applicant will not be required to pay or perform any settlement unless the applicant agrees to the settlement. The Owner/Applicant shall seek and obtain the County’s consent prior to settling any litigation subject to this paragraph.

EXISTING CONDITIONS RELATED TO THE DAILY OPERATION OF THE GOLF COURSE, CLUBHOUSE AND RECEPTION USE.

Golf Course
16. Grass clippings and other green waste shall be composted onsite, or at an approved off-site location. The compost pile shall be underlain with a plastic liner and be properly maintained, including such measures as sufficient mixing and control of moisture content. Composting operations shall comply with applicable regulations and necessary permits shall be obtained.

17. A system to collect and recycle glass, aluminum, plastic containers, newsprint, and corrugated cardboard shall be developed and implemented.

18. The success of the solid waste composting program and recycling shall be contained in the annual report prepared by the course superintendent which is submitted to the Planning Office.

19. All construction, landscaping, and security activities in the PG&E easement are subject to review and approval by PG&E.

20. A computerized golf course irrigation control system shall be provided. This system shall facilitate the application of turf grass chemicals.

Clubhouse
21. Activities at the Clubhouse shall comply with the County Noise Ordinance.
22. Windows and doors of the Clubhouse shall remain closed when the interior maximum noise level reached 110dBA or 90dBA for 30 minutes of any hour.

Reception Facility
23. Intended occupancy of the Reception Building is 224 people. The maximum occupancy for all reception uses onsite (clubhouse and reception facility) at any one time is 290 persons. No Reception uses are allowed at the 5,000 square foot outdoor covered deck north of the Clubhouse.

24. Hours of Operation for the Reception Facility and Clubhouse are from 7am to 2am, daily.

25. No outdoor amplified music or other outdoor amplified broadcasting is allowed at the Reception Facility between 10pm and 7am.

26. All doors on the northern and eastern sides of the Reception Building shall be maintained with self-closing doors. During all reception events, doors and windows on the northern and eastern sides of the reception facility shall remain shut (not propped open) and only opened as necessary for entrance/ exiting.

27. This approval does not authorize any entertainment event such as musical or theatrical performances to which the public is invited is allowed. Any entertainment events of this nature shall comply with the County’s Entertainment Event and Circuses Ordinance that requires license, fees, referrals, noticing and hearing.

28. When noise exposure within the Reception Building exceeding 90 dBA, all doors and windows (including the front doors on the western façade) shall remain closed.

29. All written contracts or other agreements between the owner and users of the Reception Facility shall clearly state:
   a. All music, amplified music, and amplified broadcasting is prohibited between the hours of 10pm and 7am,
b. All amplified music shall be located within the Reception Building,
c. The doors on the northern and eastern sides of the reception facility shall remain closed during reception events,
d. All doors and windows shall remain closed when noise exceeds 90 dBA, referencing the sound meter inside the building and its purpose, and
e. Submit a standard contract containing the abovementioned language to the Planning Office.

30. One handicapped space is to be provided at the Reception Facility at all time.

EXISTING CONDITIONS RELATED TO ONGOING MAINTENANCE OF EXISTING FACILITY (Staff has determined that the performance standards in the following conditions have been satisfied, no further action is required).

31. Oak woodland / Tree Replacement
Submit an annual Oak Woodland Restoration / Tree replacement monitoring report for a period of three years (from final inspection) from a qualified landscape architect / restoration ecologist indicating the survival rate of trees planted and overall adherence to required performance targets of oak woodland restoration and tree replanting, as outlined in the HT Harvey Memorandum dated July 15, 2008. Tree planning must meet performance measures described in the report, including the required planting of 861 trees (total) and establishment of 19.4 acres of oak woodland and oak savannah habitat (total).

The report shall be reviewed and approved by the Planning Office. The report shall describe any replanting necessary to maintain survival rates as outlined in the HT Harvey Memorandum. These reports shall be included within the Status Report to the Planning Commission as outlined under Condition #14.

32. The golf course superintendent shall submit a report to the Planning Office regarding the following measures regarding issues to potential nitrate leaching shall be reduced by:
   a. Proper application rate;
   b. Optimum time of year;
   c. Proper irrigation,
   d. Use of grasses and plants with low nitrogen requirements;
   e. Collecting, treating, or reducing runoff or drainage water;
f. Amending soils to better retain nitrogen.

33. The golf course operational plan, prepared by a qualified biologist, is to be submitted to the Planning Office for review and approval no less than six months prior to the opening of the course. The plan is to implement the following components:
   a. Adherence to the manufacturer’s recommendations and procedures for all chemical applications;
   b. Use of only County or USDA approved chemicals,
   c. Use of short life pesticides;
   d. Application of chemicals only under the direction of State licensed personnel;
   e. No over-use of chemicals;
   f. Proper storage of chemicals;
   g. Proper disposal of chemical containers;
   h. Irrigation flow regulations so that the pools will not be flooded or filled artificially during the dry season;
   i. The pool monitoring program to check for presence of fertilizers, pesticides and herbicides.

Clerk of the Board of Supervisors
County of Santa Clara
70 West Hedding Street, East Wing, 10th Floor
San Jose, CA 95110

Re: Boulder Ridge Use Permit Modification Hearing

Dear Clerk of the Board:

This office represents Rocke and Glenda Garcia, the applicants for the above-referenced use permit modification. On Tuesday, November 18th, the Board of Supervisors held a hearing on the application. A motion was made, seconded, and after comments by the individual Supervisors and Supervisor Yeager’s departure at 12:15 p.m., a vote was taken on the motion. The vote was two in favor of the motion and two opposed. An announcement was made that the project was denied, and the Board moved to the next agenda item while proponents and opponents of the application filed out of the Board chambers. As described below, we believe that the hearing ended prematurely, and that further Board action is necessary in order to reach a final decision.

Section 205 of the County Charter states in pertinent part: “No act of the Board shall be valid unless three members concur.” The vote taken on the Boulder Ridge matter on November 18th did not result in the concurrence of any three members of the Board. Consequently, while perhaps the particular motion that was being voted upon failed for lack of a majority in support, the end of that motion did not legally signify the end of the Board of Supervisors’ deliberations. The Board must make a final decision on the application, and to do so we believe that the Board’s deliberations must continue at a re-noticed hearing in the future.

We also believe it is appropriate for Supervisor Yeager, who was present for the entire public hearing and only missed perhaps 10 minutes of Board deliberation, to reconstitute himself by reviewing the video of the deliberations that occurred after his departure and thereafter he can fully participate in the remaining deliberations of the Board on this item.
We also believe that the form of the motion that resulted in a two-two deadlock may have been legally infirm. The motion sought certification of the EIR, approval of a zoning ordinance text amendment, and approvals related to the use permit all in a single vote. The CEQA Guidelines (14 Cal. Code Regs. § 15090) require that the EIR be certified before a decision on the project which is the subject of the EIR. Here, there were two subjects of the EIR: the County-initiated zoning ordinance text amendment and the use permit modification. We believe that the legally correct process when the Board resumes its deliberations is to vote first on the EIR, then on the zoning ordinance text amendment, and finally on the use permit modification approvals.

Finally, the Garcias wanted to confirm that they are agreeable to the additional conditions identified by staff and different Supervisors as part of the motion which resulted in the two-two tie. Those additional conditions, stated in general terms, were:

1) No swim meets.
2) Pool hours from 6:00 a.m. to 10:00 p.m.
3) Row of trees along the retaining wall at the base of the fitness/swim center in order to screen the center from view from the Almaden Valley floor.
4) Reduction in the height of the light well architectural features in the proposed buildings.
5) No membership solely to the fitness/swim center.
6) Three noise studies during each of the first two years of operation after the fitness/swim center opens.
7) An indemnification of the County regarding project approvals.

The Garcias seek a final decision on their use permit modification application and look forward to the resumption of the hearing before the Board of Supervisors.

Very truly yours,

BARTON G. HECHTMAN
