Construction Traffic Control:

• Traffic Protection – Submit two copies of a proposed traffic control plan to Land Development Engineering (LDE) for review and approval prior to the issuance of the Grading permit. All Work which requires a traffic detour requires the Permittee to notify Santa Clara County Communications at (408) 299-2501 and the appropriate local garbage collection company of the date(s), time(s) and details of all detours.

• Traffic Lanes – All traffic lanes shall be open to the traveling public during all hours of darkness, and on all weekends and holidays. One-way traffic may be permitted under the control of not less than two competent flagmen or as required by the latest issue of the California Manual on Uniform Traffic Control Devices for Street and Highways during normal working hours with prior approval in writing from the County. No work within the right-of-way shall be undertaken until all materials, equipment, and labor forces are available to pursue the work to completion.

• Signs – Any signs to be constructed in the execution of this Permit are to be approved by the County LDE office prior to placement of any signs.

• Temporary Traffic Control Plan (TCP) – Temporary traffic control, including traffic control devices and signs, shall be installed in accordance with Part 2 – Signs, Part 6, Temporary Traffic Control and any other applicable parts of the latest issue of the California Manual on Uniform Traffic Control Devices for Streets and Highways.

• Temporary closure of the road right-of-way shall be limited to 9am-12pm, and 1pm-5pm and such closure shall be no longer than 20 minutes at a time.

• Lanes shall be re-opened and temporary barriers shall be removed from the travel ways beyond the work hours as specified in the TCP.

• Applicant shall follow up with community outreach process and notifications.

• Provide signage (e.g., warnings, construction schedule, detour, etc.), as needed, for both directions.
