<th>Project Description</th>

Construction and operation of the Stanford Perimeter Trail (SPT) consisting of a 3.4-mile long multi-use recreational trail (walking, jogging, biking) along three of the four major streets surrounding the Stanford University core campus: Junipero Serra Boulevard, Stanford Avenue and El Camino Real. Currently there are 73 informal parking spaces that are available on Stanford Avenue between Junipero Serra Boulevard and Ryan Court. Fifteen (15) parking spaces will be eliminated from Stanford Avenue road right-of-way, to accommodate the SPT. Stanford proposes to provide 33 new parking spaces on Coyote Hill Road that will result in a total of 91 parking spaces (58 spaces on Stanford Avenue and 33 spaces on Coyote Hill Road) available for the SPT and other area trail users. Stanford University proposes to restripe Coyote Hill Road, reducing the number of travel lanes from four to two, and utilize the space for parallel parking and new sidewalks. No protected trees will be removed as part of this project. The project has an estimated grading of 4,500 cubic yards of cut and 4,500 cubic yards of fill.
The proposed project is in conformance with both the 2000 Stanford Community Plan (CP) and General Use Permit (GUP). The proposed Stanford Perimeter Trail will act to implement mitigation measure OS 3B from the 2000 CP/GUP EIR (SCH #1999112107), and is a subsequent activity within the scope of the program approved earlier and evaluated in the 2000 CP/GUP EIR. On December 11, 2014, the Santa Clara County Architecture and Site Approval Committee (ASA Committee) accepted an Addendum to the 2000 CP/GUP EIR, which constituted a written checklist evaluating whether the environmental effects of the Stanford Perimeter Trail and additional parking on Coyote Hill Road were covered in the 2000 CP/GUP EIR. The Addendum demonstrates that although the Stanford Perimeter Trail and associated parking on Coyote Hill Road were not specifically analyzed in the 2000 CP/GUP, the 2000 CP/GUP EIR adequately describes the activity for purposes of CEQA, the project will not cause any significant environmental impacts beyond those identified in the CP/GUP EIR and the County has incorporated feasible mitigation measures and alternative developed in the 2000 CP/GUP EIR into the project. After accepting the Addendum to the 2000 CP/GUP EIR, the ASA Committee granted Architectural and Site Approval and Grading for the above described project. The 2000 CP/GUP EIR, Addendum to the 2000 CP/GUP EIR for the Stanford Perimeter Trail and associated parking on Coyote Hill Road, and the record of project approval may be examined at the Santa Clara County Office of Planning and Development.

1. The project will not have a significant effect on the environment.
2. A Monitoring Program was adopted.
3. ☐ A Mitigated Negative Declaration was prepared for this project pursuant to the provisions of CEQA.
   a) ☐ Mitigation Measures have been made a condition of approval of the project.
4. ☑ A Program Environmental Impact Report and an Addendum has been prepared for this project pursuant to the provisions of CEQA.
   a) ☑ Mitigation Measures have been made a condition of approval of the project.
   b) ☑ A Statement of Overriding Considerations was adopted for the Program.
   c) ☑ Findings were made for the Program pursuant to section 15091 of CEQA.
   d) ☑ This activity is within the scope of the Program approved earlier, and the Program EIR adequately describes the activity for the purposes of CEQA.
