RE: YOUR LETTER OF MARCH 1, 1988 REGARDING PORTABLE FACILITY

Please be advised that you may install a portable sand and gravel plant as indicated on plans submitted to us without the necessity of having to go through any land use approval.

Because of your status as a legal nonconforming use and the fact that this overburden already exists, puts this additional rock processing facility as a use which has historically been allowed at this site. Furthermore, no Architectural and Site Approval will be required, as long as the facility is to be located within the area shown on the plans, which again has historically been used to process rock material.

As we understand from your letter dated March 1, 1988, this same material is sometimes sold, and this new operation will just make it more marketable.

We hope that this letter clarifies your responsibility in order to install said equipment. Thank you for reviewing this clearance with this department.

A handwritten signature in black ink, appearing to read "Lucas S. Stamos".

Lucas S. Stamos
Zoning Administrator
