

Department of Planning and Development

2018 GUP EIR Scoping Comments Primary Issues and Categories

CRG

Presentation by Kirk Girard, Director

May 11, 2017

Traffic

- Specific Problem Area Investigations (e.g., Stanford Avenue)
- Specific Mitigation Suggestions (stop signs here - traffic signal there, speed limits, metering lights, TDM programs)
- No Net New Trips Program
- Cyclists and Pedestrians
 - Impacts
 - Trail Connectivity
- Connections to Regional Traffic Management Solutions and Plans
- Construction Traffic

Neighborhood Impacts

- Parking (e.g., Evergreen Park - residential parking program)
- Traffic Patterns and Short-circuiting

Housing

- Jobs Housing Balance
- Workforce Housing
- Affordable Housing Impact Fee

Protection of Open Space

- Academic Growth Boundary
- Transfer of Development Rights

Impacts to Public Services

- Transit
- Parks and Recreation
- Fire and Emergency Services

School Impacts

- Enrollment Impacts
- Safe Routes to Schools

Resource Consumption

- Energy

Resource Consumption

- Energy

Air Emissions

- Green House Gas Emissions
- Reduced Air Quality (exhaust emissions)
- Toxics (construction emission of asbestos)

Stormwater Impact

- San Francisquito Creek Flood Control

Limits to Growth

- Planned Ultimate Growth
- Community Impacts of Perpetual Growth

Cumulative Impacts

- Consider Other Planned Development in the Vicinity and Region
