JOB DESCRIPTION
~ Please apply online: www.cei.com/careers ~

Position: Safety Coordinator

Location: San Jose Area

Great career opportunity for an experienced Safety Coordinator to support a new major construction project in Santa Clara, then add value to other complex projects in the area. Candidate must have verifiable experience in the construction industry. We seek professionals who think safety first and lead with integrity.

Position Summary:
Coordinate the company's environmental, health and safety program at a project level. Provide technical support and assistance to Project Team in developing and maintaining a Project Safety Roadmap. Support Project Team in developing and sustaining an Incident and Injury Free Culture (IIFC).

Essential Job Functions:
- Support Crew Foreman/General Foremen in development of Job Hazard Analyses and an overall Project Safety Roadmap
- Evaluate effectiveness of safety programs through daily field walks. Regulatory compliance and audit oversight.
- Provide coaching and mentoring for employees exhibiting unsafe behaviors, and provide recognition for employees exhibiting safe behaviors.
- Deliver safety training and new employee orientations
- Support incident investigations
- Provide regular feedback to Project Team on safety areas for improvement and recognition. Assist in the development of project-specific corrective action plans to address safety issues occurring in the field.
- Collaborate with general contractor and other subcontractor Safety Professionals on job-specific injury prevention measures.

3 TO 5 KEY SKILL SETS REQUIRED
~ Please apply online: www.cei.com/careers ~

Minimum Job Requirements:
- 2 or 4 year college degree desired, preferably in environmental health and safety discipline.
- 3+ years of experience in similar role in the construction (or closely related industry), specific experience with Electrical Contractors is a big plus
- Ability to work independently, strong communication skills with ability to influence behaviors
- Safety certification is desired.

Applicants must be authorized to work in the United States. This position is not eligible international
Why join us?

At Cupertino Electric, we’re obsessed with helping our customers solve large, complex problems— from designing and building one of the first semiconductor chip plants in Silicon Valley to beating construction schedules everyone else would find impossible.
