Annex B

First Responder Funding in the
Santa Clara County Exclusive Operating Area

I. PURPOSE OF FUNDING

This Annex is intended to identify the criteria and processes related to Provider access to available first responder funding within the Santa Clara County Exclusive Operating Area (EOA). Fire departments operating within the EOA must be compliant with the provisions of the 911 Emergency Medical Services Provider Agreement in order to be eligible for the funding opportunities afforded herein.

Provider’s participation in this funding opportunity is voluntary. However, in order to receive funding, the performance criteria detailed herein must be met. Providers that choose to terminate the Agreement shall be responsible for any liquidated damages incurred while performing under the Agreement, and damages shall not exceed the allocated funding.

In the event of termination of the agreement between the County and Rural/Metro or termination of the Agreement between the County and Provider, all applicable funding opportunities will cease.

Funding is provided for meeting specific performance standards that benefit the EMS System.

II. ALLOCATIONS BY COUNTY

By July of each year, the County will issue a notice indicating the maximum amount of funding available to each Provider. The amount of eligible funding will be determined using a formula that considers, but is not limited to, increases in EOA authorized billing charges, Consumer Price Index changes, and the Provider’s EMS call volume. Annual allocations may increase, remain the same, or decrease based on EMS call volume (defined as an EMS call where County EOA ambulance was dispatched), available funds, damages levied, and other factors.

Increases to first responder funding will be determined based on Section 3.5 First Responder Fees of the Agreement between the County and Rural/Metro. First responder program funding shall be subject to increase annually by 3/5 of the authorized rate of the ambulance fee increase. For example, if ambulance rates increase by 5 percent, the first responder stipend will increase by 3 percent that same year. If the ambulance fees do not increase, program funding will not decrease. However, the County shall determine the exact allocation to Provider based on the formula described above.
Any unused allocation of first responder program funding will be deposited into the EMS Trust Fund annually.

First responder funding will be allocated in two areas; Category A: EMS Resource Management and Category B: Response Time Performance, as specified below. Category A funding allocations will be based on EMS call volume during the past calendar year. Category A funding availability for the first year of this Agreement will be based on Calendar Year 2010 EMS volume as reported to the County through the review process used under the AMR contract/subcontract which expires June 30, 2011. Category B funding will match the amount provided to eligible responders through the AMR subcontract that expires June 30, 2011.

The EMS Agency shall verify compliance with established standards and agreements prior to authorizing the payment of stipends. Rural/Metro shall make quarterly payments (in arrears) equal to one-fourth of the annual stipend to each Provider. The payment will be adjusted for debits and damages.

III. CONTINUATION OF FUNDING BEYOND FIVE YEARS

If Providers wish to request that the first responder funding program continues in the next County EOA service agreement (beyond June 30, 2016); a proposal must be submitted to the EMS Agency Director by December 31, 2013 or later as determined by the EMS Agency.

It is recommended that the Santa Clara County Fire Chiefs Association participate in developing recommendations that address collective fire service issues in addition to any city/department specific proposals. At a minimum the proposal must include the total amount requested, rational for continuation of funding eligibility, exact performance criteria that will benefit the entire Santa Clara County EMS System.

Proposed performance standards must be specific, measurable, attainable, relevant, and time-bound. The proposed methodology must detail how funds would be distributed to participating departments, liquidated damages structures, and/or other financial considerations.

Nothing in this Agreement shall eliminate the ability of each fire department to submit individual recommendations in addition to the collective proposal identified above.

IV. CATEGORY A: EMS RESOURCE MANAGEMENT

The purpose of Category A (EMS Resource Management) is consistent with utilizing CAD to CAD data and associated reporting of event data as well as the continued use of Emergency Medical Dispatch (EMD) and the Medical Priority Dispatch System (MPDS) to more effectively and efficiently deploy and utilize emergency medical resources.
Category A funding is calculated using the following formula:

\[
\frac{\text{Total Funds Allotted for EMS Resource Management}}{\text{Previous Calendar Year Total EMS Events for all First Responder Agencies} \times \text{Previous Calendar Year Total EMS Events for Individual First Responder Agency}} = \text{Total Allotment for Current Calendar Year}
\]

Example:

\[
\frac{\$100}{50} \times 10 = \$20
\]

Allotted Funds CY10 CY10 CY11

In order to receive funding, Provider must meet the performance standards described herein.

Performance standards in this section include the following:

1. Reduction in Unnecessary Ambulance Response
2. Emergency Medical Dispatch Assessment Project
3. Use of Medical Priority Dispatch System

A. Reduction in Unnecessary Ambulance Response

In order to better allocate County EOA ambulances, Provider agrees to cooperate with the County and Rural/Metro to reduce unnecessary ambulance dispatches and/or cancel ambulances when appropriate.

In order to facilitate this process, Provider shall submit biannual reports demonstrating a review of all calls that resulted in no patient being transported. At a minimum this report shall contain (1) total number of responses where a patient was not transported, (2) the reason the patient was not transported, and (3) the Medical Priority Dispatch System determinant that was used if known. Analysis of this data by the EMS Agency will enable the review of policies and procedures so that adjustments may be made if necessary.

The Provider agrees to work cooperatively with the EMS Agency to develop and implement operational practices to continuously reduce inappropriate ambulance use.

Providers are required to submit the report by the last business day in January (period of July-December) and July (period of January to June) of each year. If Provider fails to provide the report, damages of $250.00 per-day or portion thereof, may be levied by the County, up to a maximum of $2,500.00 per reporting period. No funds will be made available to the Provider until the report is submitted to the EMS Agency.
B. Emergency Medical Dispatch Assessment Project

The purpose of this project is to determine the most effective use of Emergency Medical Dispatching (EMD) and Medical Priority Dispatch System (MPDS) use and to identify objective criteria and establish benchmarks that may be used to improve system efficiencies and patient outcomes. In order to develop a comprehensive recommendation to the EMS Agency, Provider agrees to cooperate with the County and Rural/Metro to assess and make recommendations related to the use of EMD and/or MPDS. The intention of this project is to help provide funding to Provider to work with the EMS Agency to develop, implement and revise the Santa Clara County Prehospital Care Manual and/or standard operating procedures related to EMD. Provider agrees to collaborate with the Santa Clara County Fire Chiefs Association to make recommendations to the EMS Agency related to this project. The EMS Agency shall coordinate this effort and will include other appropriate stakeholders as necessary.

C. Medical Priority Dispatch System Use

The use and reporting of MPDS is a critical tool in assessing the type of EMS calls processed through a dispatch center. In addition, the provision of pre-arrival medical and safety instructions to the caller from the dispatcher is a key component in starting medical care as soon as possible.

As fire departments are currently using MPDS, the following performance standards apply for eligibility for funding in this section of Category A funding.

C.1 Validation/Required Reporting:

Data reporting for Table 1 shall include (1) the total EMS calls per-month, (2) total number of calls that were processed using MPDS, and (3) the MPDS call determinant that was used. The data must be in computer-readable format, suitable for statistical analysis and integrate with “FirstWatch”. Once CAD/CAD is in place, reporting may be automated. Provider will have 60 days to implement changes to required reporting elements.

C.2 Liquidated Damages:

Providers are required to submit the report by the last business day in January (period of July-December) and July (period of January to June) of each year. If Provider fails to provide the report, damages of $250.00 per-day or portion thereof, may be levied by the County, up to a maximum of $2,500.00 per reporting period. No funds will be made available to the Provider until the report is submitted to the EMS Agency.

If Provider fails to meet the requirements contained in Table 1, 50% of eligible Category A funds will be deducted for each month where compliance was not achieved and the amount of damages deposited in to the EMS Trust Fund. The amount of damages shall not to exceed the total available Category A funding allocation.

Within any consecutive twelve month period, three or more occurrences of meeting less than the required percentage in Table 1 100% of the remaining eligible funds will be deducted as a penalty and placed into the EMS Trust Fund. Continuation of the Provider in the Category A funding eligibility will be restored upon Provider meeting the standards prescribed in Table 1 for no less than three consecutive months and will be at the sole discretion of the County.
