

Electric Vehicle Charging Stations at County Facilities

The County of Santa Clara supports environmentally friendly commuting by providing 80 electric vehicle charging station ports at County facilities, with more expected in the near future.

Learn how to use an [EV Charging Station!](#)

For additional information on charging stations, search for individual addresses at https://na.chargepoint.com/charge_point (to review addresses Chrome browser recommended).

As a reminder, please be mindful of the availability and time limit of each station.
