Duration of Homelessness

Out of the more than 100,000 people who experienced homelessness from 2007 through 2012, during those six years:

- **20%** were homeless for 1 month
- **32%** were homeless for 2-6 months
- **12%** were homeless for 7-11 months
- **13%** were homeless for 1 year - 23 months
- **13%** were homeless for 1 year - 23 months
- **22%** were homeless for 2 years or more

2007-2014 Regional Housing Need Allocation (RHNA) Progress

Association of Bay Area Governments, “San Francisco Bay Area Progress in Meeting 2007-2014 Regional Housing Need Allocation (RHNA).” Sept. 2015. Available at: https://abag.ca.gov/files/RHNAProgress2007_2014_082815.pdf. RHNA tracks local need and development of housing by affordability, based on the federal Area Median Income (AMI) calculation. Very low-income households have income at or below 50% of AMI for Santa Clara County, and above moderate-income households have income over 120% of AMI.
