Task Force Members Present:
Bill Konle; Doug Reynaud; Carla Ruigh; Mary-Lou Fitzpatrick; Fadi Saba, Jan Webb, Michael Patterson; Kathy Rairden; Brent Bear; Brian Seifert;

Task Force Members Absent:
Frank Croft; Richard Von Bargen; Alicia Borowski

The HLUET Committee recommendation to prepare and evaluate an “Alternative C” (with golf course and events pavilion.) Also discussed was the feasibility report on hang gliding and bicycle BMX and dual slalom facilities. The Draft Trails Plan was also presented. Following this discussion, and public input, Task Force members were asked to provide their recommendation as to whether these uses should be included in the Master Plan. Votes are noted below:

**BMX Bicycle Facility at West Flat Area**
- No Facility: 2
- Permanent Facility (with more study): 3
- Special Event Facility Only: 4
- Abstain: 1

**Dual Slalom Facility at West Flat Area**
- No Facility: 5
- Permanent Facility: 2
- Special Event Facility: 2
- Abstain: 1

**Hang Gliding Launch/Landing on Western Ridge and Western Flat**
- Yes: 2
- No: 8

**Alternative C**
Following the presentation on Alternative “C”, Task Force members were asked if any would like to change their recommended alternative. Some Task Force members changed their vote from “A” (golf course) to “C” (golf course and events pavilion). The resulting balance was the same, with 5 Task Force members supporting an alternative with golf course, and 8 supporting Alternative B without a golf course.

It was noted that the Task Force members’ recommendations would be presented to the Board of Supervisors in December. The Board of Supervisors would provide the final recommendation for the direction of the Master Plan.

**Trails Plan**
The Trails Plan was accepted with enthusiasm. It was suggested that a portion of the regional trail corridor “S8” south of San Martin Ave. should be abandoned since it does not tie into the park trails and crosses private property.

**Natural Resource Management Plan**
A draft copy of the plan was distributed but not discussed. It was suggested that if individual Task Force members wanted to review the plan and provide comments, they should address them to Elish or Antoinette.
