PROJECT OVERVIEW

The Sanborn County Park Master Plan will be a guiding document that outlines the Parks Department’s long-term vision for the park, including a set of recommendations for the development, improvement and/or use of the Park’s facilities, the Welch Hurst House, the Christensen Nursery site, the Dyer House, and the former Christmas tree farm. Specific goals for the Master Plan include to:

1. Seek to enhance visitor experience by improving and expanding existing amenities
2. Assess the feasibility of a variety of potential amenities
3. Seek to preserve and enhance natural and historic resources
4. Recommend new Park facilities that respond to the changing recreational desires of the public
5. Outline opportunities to improve existing partnerships and the potential for new partnerships

At this point in the planning process, County Parks is seeking public input on preliminary programming recommendations. Input from the public, stakeholders, and the County’s Park and Recreation Commission (PRC) will be integrated into a Draft Plan that will be presented at a second community meeting.

COMMENTS?

Please fill out this card with any comments you have on the preliminary programming plans for Sanborn County. Place completed card in “Comment” box.
