Master Plan Amendment
The County of Santa Clara Department of Parks and Recreation is preparing an amendment to the 1993 Master Plan for Joseph D. Grant County Park. The amendment will provide trail and backcountry camping plan recommendations for the 1,155-acre Sulphur Springs Ranch area, located south of State Highway 130 and east of the Smith Creek CalFire Station.

Additional Goals:
• analyze opportunities and constraints of various locations within the entire Park for backcountry camping;
• analyze opportunities and constraints of vault and composting toilets and identify a recommended model(s) and location(s); and
• comply with California Environmental Quality Act (CEQA) requirements.
