# It's a Weeding Party at Your Hellyer County Park

Hellyer County Park

Saturdays

9:00am-11:00am

**parks**forlife

There are many ways to keep your park beautiful! If you are looking to get outside and connect with new people right in your backyard this is the opportunity for you!

California native plants play an important role in the health of our parks. To help them thrive we have to work together to remove non-native and invasive plants.
