

# View your GPS location on our maps offline with Avenza Maps

## 1) Install the free Avenza Maps app for iOS or Android

## 2) Allow Avenza to use your location & You'll be asked to create an account

We recommend this for getting our free maps through the Avenza Store, but you can skip this step by clicking **I'm New** then clicking the back button.

3) Now leave Avenza and open a browser. Go to [parkhere.org](http://parkhere.org) and click **Park Maps for Social Distancing** to select a map.

4) The map will open in your browser. Click on the options button to open (copy) the map in Avenza Maps (you should see the Avenza icon).

5) The map will then load into Avenza. Open the map when you arrive to the park and you will see your blue GPS point.
