SPECIAL EVENT PERMIT GUIDELINES

Thank you for contacting the County of Santa Clara Roads and Airports Department regarding your Special Event. We welcome the opportunity to work with you to help ensure that your event is a success. These guidelines have been prepared to help guide you through the process of obtaining a Special Event Permit for an event on a road in unincorporated Santa Clara County. Should you have any questions along the way, please feel free to contact us at the above number.

The information in these guidelines is consistent with the County of Santa Clara’s Special Events Ordinance (No. NS-502.8 of Division B3, Chapter VII of the Ordinance Code), which is designed to effectively regulate events on County roads so that they are safe, clean, and cause minimal impacts. You may view the Special Events Ordinance in its entirety at www.sccgov.org.

The information requested in the special event permit application will be used to determine the applicable permit for your event. The permit process begins when you submit a completed Special Events Permit Application. The County’s acceptance of your application should in no way be construed as final approval or confirmation of your request. During the review process, you will be notified if your event requires any additional information, permits, licenses or certificates.

Using these guidelines as a reference, please complete the application completely by typing or printing clearly. Depending on the nature of your event, additional information may be required. Your permit will not be issued until all required information is received, reviewed and approved. The attached matrix summarizes the various types of permits and their associated timelines. The types of Special Event Permits are:

Step #4—Payment of Appropriate Permit Fees

Applicants for permits will be required to pay appropriate permit fees to conduct the event. Permit fees are established by the Board of Supervisors. The current fee schedule is attached. Fees for permits for a Block Party, Minor Event, and Expressive Activity are fixed dollar amounts. The fee for a Major Special Event Permit is determined by the number of labor hours required for permit processing and inspection. You will be required to submit a deposit to cover the estimated costs. At the conclusion of the event, you will be refunded (or billed) for the difference between the actual costs and the amount of the deposit.

Step #5—Permit Issuance

A permit will be issued if it is determined that the following criteria has been met:

- The proposed use of the road is not governed by or subject to any other permit procedures provided elsewhere in the Special Events Ordinance or applicable laws, rules or regulations.

- The preparation for or the conduct of the proposed event will not unreasonably or unfeasibly burden County resources necessary to preserve the public’s use of the road, the area contiguous to the road or other public property.

- The preparation for or the conduct of the proposed event will not unduly impede, obstruct, or interfere with the operation of emergency vehicles or equipment in or through the particular permit area or adversely affect the County’s ability to perform County functions or furnish County services in the vicinity of the permit area.

- The proposed event does not otherwise present a substantial or unwarranted safety, noise or traffic hazard.

- For events that will result in a road closure and traffic diversion, a temporary traffic control plan has been prepared addressing the proposed detour routes to the extent such a plan is required and approved by the County.

- The manner of providing notice of permit conditions to businesses and residents who may be directly affected by the conduct of the event has been provided.

- The proposed event will not cause adverse impacts on health or safety to surrounding residential or commercial uses, which cannot be effectively mitigated.

A permit will be denied or revoked (after it is issued) if one or more of the to following exists:

- One or more of the criteria for approval, above, has not been met.

- The applicant has knowingly or deliberately made a false, misleading or fraudulent statement of a material fact in the application.
• The application does not contain all information requested.

• The applicant has failed to conduct a previously authorized major or minor special event or block party, in accordance with the law, including the terms of the special event permit, or has failed to reimburse the County for property damage caused by the event, unless the applicant demonstrates changes to the operation of the event have been made to ensure compliance with the law and special event permit requirements for the event under consideration.

• The event is prohibited by any local or state law, statute, rule, ordinance or regulation.

• The applicant fails to comply with or agree to a permit condition.

• The applicant fails to agree, as a condition of permit issuance that if the road, or portion thereof, is destroyed or damaged by reason of permittee’s event and the damage or destruction is directly attributable to the permittee, the permittee will reimburse the County for the actual replacement or repair cost of the destroyed or damaged property.

**Step #6—Denial or Revocation of Permit**

If your application for a special event permit is denied or revoked, you may appeal this decision to the Office of the County Executive. The County Executive, or designee, will hear all appeals de novo and approve, disapprove or modify the decision of the Director.

If the event is a block party or minor or major special event then the appeal must be filed with the Clerk of the Board of Supervisors within five business days of the Department’s decision and, subsequently, decided by the County Executive within one business day.

If the event involves expressive activity then an appeal must be filed with the Clerk of the Board of Supervisors within 24 hours of that decision and the County Executive, or designee, must decide the appeal within one business day. The County Executive’s decision must be in writing and must be final except for judicial review.
Step #7—Insurance

In general, the applicant should procure and maintain in full force and effect during the term of the permit a policy of insurance in accordance with the County’s Department of Risk Management requirements. The insurance must be reasonable and attainable to the applicant. Proof of insurance must be submitted to the County prior to issuance of the permit and must be maintained throughout the duration of the permit. If the County determines that a particular event which is no more than one day and does not present a substantial risk to the County then the County may waive the insurance requirements.

Step #8—Indemnification

The applicant should also submit a hold harmless agreement in a form approved by the County agreeing to defend, indemnify and hold harmless the County against losses and liabilities incurred from the conduct of the permittee or its officers, employees or agents.

Step #9—Clean Up

After the event is completed, clean up and proper dispose of garbage and trash from the event location is required within seventy-two hours of the end of the event.
