--------------------------	--------------------------	--------------------------	--------------------------

2. Seal cracks and penetrations in building envelope with insulating foam or caulk.

<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
--------------------------	--------------------------	--------------------------	--------------------------

3. Install reflective (white or light colored) roofing material.

<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
--------------------------	--------------------------	--------------------------	--------------------------

4. Install durable (40+ year) roofing material

<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
--------------------------	--------------------------	--------------------------	--------------------------

Pollution

DESCRIPTION

YES NO N/A Post

1. Complete a CO2 or eco-footprint calculator to determine your own greenhouse gas emissions.

<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
--------------------------	--------------------------	--------------------------	--------------------------

2. Offer a shuttle service to and from bus, train and/or light rail stops.

<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
--------------------------	--------------------------	--------------------------	--------------------------

3. Convert company vehicles to low emission vehicles (electric, hybrid, natural gas or alternative fuels).

<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
--------------------------	--------------------------	--------------------------	--------------------------

DESCRIPTION

YES NO N/A Post

1. Buy recycled paint and low VOC products when available (paint, paint removal products, etc.).

<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
--------------------------	--------------------------	--------------------------	--------------------------

2. Use OSB (Oriented Strand Board) as an alternative to plywood for subfloor and sheathing.

<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
--------------------------	--------------------------	--------------------------	--------------------------

3. Substitute standard particleboard with formaldehyde-free alternative materials for panels, millwork and cabinetry.

<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
--------------------------	--------------------------	--------------------------	--------------------------

4. Do not use PVC in projects unless the client insists on it (fiber windows are an alternative to vinyl windows).

<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
--------------------------	--------------------------	--------------------------	--------------------------

5. Use treated wood without chromium, arsenic and pentachlorophenol for applications specifying treated wood.

<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
--------------------------	--------------------------	--------------------------	--------------------------

6. Buy products with low or no VOCs and with no formaldehyde when available (i.e., caulks, mastic, paints and wood finished, paint removal products, etc.)

<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
--------------------------	--------------------------	--------------------------	--------------------------
