# California Green Business Program

## Checklist preview

**Program:** **Santa Clara**
**Sector:**   **Winery**

### Waste

| DESCRIPTION | YES | NO | N/A | Post |
|---|---|---|---|---|
| **1.** Recycle fiber barrels. | ☐ | ☐ | ☐ | ☐ |
| **2.** Recycle natural cork. | ☐ | ☐ | ☐ | ☐ |
| **3.** Recycle wood, including pallets. | ☐ | ☐ | ☐ | ☐ |
| **4.** Compost food scraps. | ☐ | ☐ | ☐ | ☐ |

### Energy

| DESCRIPTION | YES | NO | N/A | Post |
|---|---|---|---|---|
| **1.** Incandescent bulbs that are not replaced with compact fluorescents are replaced with LEDs. | ☐ | ☐ | ☐ | ☐ |
| **2.** Energy efficient technologies and designs are used throughout including sloping floors, stacking tanks, solar aerators, smaller diameter pipes, and software for monitoring equipment performance. | ☐ | ☐ | ☐ | ☐ |
| **3.** New equipment purchases are made for optimal performance and results by including adjustable speed drivers, multi-speed motors, and right sized pumps. | ☐ | ☐ | ☐ | ☐ |
| **4.** Routinely check the glycol temperature setting manually and ensure that it has automatic reset controls. | ☐ | ☐ | ☐ | ☐ |
| **5.** Evaluate evaporator and condenser and ensure that they are the right size for the load. | ☐ | ☐ | ☐ | ☐ |
| **6.** Evaluate the chiller model and ensure that it is the correct size for the load | ☐ | ☐ | ☐ | ☐ |
| **7.** Equip tanks with reset controls. | ☐ | ☐ | ☐ | ☐ |
| **8.** Use Insulation jackets on at least 50% of the tanks. | ☐ | ☐ | ☐ | ☐ |
| **9.** Evaluate glycol lines and ensure that they are insulated and the correct length and size. | ☐ | ☐ | ☐ | ☐ |
| **10.** Employ solar energy to supply a supplemental source of energy to the building | ☐ | ☐ | ☐ | ☐ |
| **11.** Install plastic strip curtains on walk-in refrigerator/freezer doors. | ☐ | ☐ | ☐ | ☐ |
