

## Got LED Bulbs??

Modern LED bulbs do not contain the mercury found in fluorescent light bulbs, but they do contain electronic components and are electronic waste (e-waste) and should not be thrown in the trash. All e-waste including LED bulbs are accepted at all HHW events at both our San Jose and San Martin facilities and at our one-day HHW events throughout the County.

Many non-profit organizations such as Goodwill, Hope and Salvation Army in Santa Clara County accept electronic waste from our residents but it's a good idea to call ahead to confirm they will accept your LED bulbs.

Since a lot of bulbs now look alike and there are many on the market, if you're not sure of what to do with any bulb, you can always make an appointment to drop off bulbs at an HHW event. To make an appointment, call our appointment line at (408) 299-7300 during business hours, or return to [HHW.org](http://HHW.org) and we will be happy to help.
