Details:

On October 31, 2017, at approximately 01:17 AM, the San Jose Fire Department received a 911 medical call from the Capitol Light Rail Station (LRS). Upon arrival, medical personnel discovered a conscious, male adult with a facial injury. The male stated he was struck by a projectile while riding his bicycle. The victim was transported to a local area hospital for further examination.

During the course of the medical evaluation, hospital personnel discovered the male had been shot. The Sheriff’s Office Transit Patrol was immediately notified and began a large-scale criminal investigation. We have no further details to provide at this time.

Currently, the VTA Capitol LRS is out of service while Crime Scene Investigators survey the area and collect evidence.

An update will be provided by VTA once their service resumes normal operation.
