MEDI-CAL APPLICATION GUIDELINES

The Medi-Cal Program provides health care coverage to low income individuals and families. There are many different Medi-Cal programs that apply to individuals and families. The following list contains VERY broad eligibility guidelines for Medi-Cal applicants:

- To qualify for Medi-Cal benefits, a person must be a resident of the state of California.
- To receive full coverage, a person must be a U.S. citizen or legal permanent resident.
- Persons without satisfactory immigration status may only qualify for emergency and pregnancy-related services.
- Persons who qualify for Medi-Cal may have a monthly share-of-cost (deductible) if income exceeds the allowable limit for free coverage.

Programs for Families with Children:
Eligibility for free Medi-Cal is determined by the Federal Poverty Level (FPL) amount and the family size. Special Medi-Cal programs are available to provide prenatal and 60-day postpartum care to pregnant women and medical care to children under age 19 at no cost. The family income limits for no cost Medi-Cal under the FPL programs are higher than other Medi-Cal programs. Children with family income between 160% and 266% FPL are subject to monthly premiums of $13 per child with a maximum of $39 per family. Assets are not considered for these programs (there are no property limits).

Healthy Kids: Covers children in Santa Clara County under age 19 (including undocumented children) with family income at or below 300% of the Federal Poverty Level (FPL).
